CSP ABU DHABI TERMINAL - OPERATIONAL UPDATE 3

Temporary Import Arrangement via Khorfakkan / Fujairah Port

Dear Valued Customers,

Referring to the attached customer advisory from Abu Dhabi Ports, CSP Abu Dhabi Terminal (CSP ADT) will adhere to the operational arrangement that applies to import containers arriving via Khor Fakkan Port and Fujairah Terminal, considering the current regional situation and guaranteeing the continuity of cargo flow to Abu Dhabi.

Under this arrangement, all import containers may be discharged at Khor Fakkan Port or Fujairah Terminals and then transported by rail or road to CSP Abu Dhabi terminal under customs bonded transit for final customs clearance and Customs Duty payment through Abu Dhabi Customs.

This arrangement will be implemented as a contingency plan until the situation improves and shipping routes are normalized, with the goal of providing customers with more flexibility while maintaining efficient Customs clearance processes through Abu Dhabi Customs at Khalifa Port. Customers and Shipping Lines intending to utilize this arrangement are advised to coordinate closely with Noatum Logistics / Noatum Rail for the transportation arrangements to CSP ADT, Khalifa Port.

The safety of our employees, partners, and customers/cargo is our top priority.

We appreciate your understanding and patience. CSP ADT will continue to provide updates as more details become available. For updates, customers are encouraged to get in touch with the CSP ADT Commercial Team focal point or rely on official announcements and verified communications.

Yours Sincerely,

For CSP Abu Dhabi Terminal

Commercial Department.
