## CSP ABU DHABI TERMINAL - OPERATIONAL UPDATE

Dear Valued Customers,

Given the recent regional escalation, including limitations on maritime traffic through the Strait of Hormuz, shipping services in the Middle East have been severely disrupted, although terminal operations at CSP Abu Dhabi Terminal (CSP ADT) continue without interruption.

Referring to the latest AD Ports circular (attached), we would like to update that the CSP Abu Dhabi terminal is currently operational and will follow the Port Authority's and regional authorities' instructions and recommendations in this regard.

**The safety of our employees, partners, and customers/cargo is our top priority.**

We appreciate your understanding and patience at this critical point. CSP ADT will continue to publish updates as additional information becomes available. We encourage that customers rely on official authority announcements and verified correspondence for updates or please contact CSP ADT Commercial Team focal point.

Thank you for your understanding and continued cooperation.

Yours Sincerely,

**For CSP Abu Dhabi Terminal**
